

RADHE PHOTOGRAPHY

PREFACE

As a student of Bachelor of Computer Application according to the syllabus subscribed by Bhakta Kavi Narsinh Mehta University, Junagadh(Gujarat), In 6th semester of B.C.A. to prepare a project on any particular subject of student choice. The project should be selected on precise subject that will fulfil the requirements.

The project report Training is under taken by [Dr.V.R.Godhaniya College](#) of information technology in porbandar. Project report has been prepared on the base of information we collected. We sincerely apologise if any wrong information is given.

	THANK YOU	

ACKNOWLEDGEMENT

It is our great pleasure to present our project report on **RADHE PHOTOGRAPHY** which we conceived during the BCA 6th Sem affiliated to Bhakta Kavi Narsinh Mehta University.

We take this opportunity to express our sincere gratitude and we feel immense pleasure to thank our faculty, philosopher and guide [NIRAV DATTANI](#) who

Project name	RADHE PHOTOGRAPHY
Front end	HTML,CSS,JS
Back end	PHP,MYSQL SERVER
Developed by	VARSHA PARMAR, RIDDHI GOHEL, MAHEK BHALIYA.
Tools	Microsoft Visual code 2012
Testing	Manual
Task	Analysis, Designing, Coding, Testing
Guided by	NIRAV DATTANI
Developed at	Dr.V.R.Godhaniya IT College Porbandar

helped us and gave full support in each and every way to fulfil and accomplish our website of [RADHE PHOTOGRAPHY](#).

PROJECT PROFILE

ABSTRACT OF PROJECT (BRIEF SYSTEM BACKGROUND)

Project Title: Development of Radhe studio Website

Radhe photography aims to establish a robust online presence through a user-friendly, informative, and engaging news website. The platform will provide engagement, pre-wedding, wedding and photography.

System Overview:

The proposed system will:

1. for the photography
2. Offer categorized photos sections (engagement, pre-wedding, wedding and photography..)
3. Provide inquiry and information
4. Support multimedia content (images, videos, podcasts)

Key Objectives:

1. Enhance user experience through intuitive navigation and content organization
2. Increase website traffic and engagement
3. Provide seamless integration with social media platforms
5. Ensure scalability and reliability

Functional Requirements:

1. User registration and login
2. Content management system (CMS)
3. Search functionality
4. Social media integration
5. Analytics and performance tracking

This abstract provides a concise overview of the project's background, objectives, and requirements. It serves as a foundation for the project brief, which will outline the scope, timeline, and budget in greater detail.

Reports:

Name of Organization : RADHE PHOTOGRAPHY

Project Time Duration: 3 months.

Prepared By : Varsha Parmar .

Prepared By : Riddhi Gohel.

Prepared By : Mahek Bhaliya

Summary :

RADHE PHOTOGRAPHY aims to create a user-friendly, informative PHOTOS website providing real-time updates, categorized photo sections, searchable archives, and multimedia content. Key objectives include enhancing user experience, increasing traffic and engagement, establishing credibility, seamless social media integration, and scalability.

PRELIMINARY INVESTIGATION

This preliminary investigation aims to identify the feasibility, requirements, and potential challenges of developing the Rival News Website.

This preliminary investigation provides a foundation for further project planning and development.

Technical Feasibility:

1. Front-end: JavaScript, HTML5, CSS3 are suitable for responsive design and user interface.
2. Back-end: PHP is a popular choice for web development, suitable for dynamic content management.
3. Database: MySQL is a reliable and scalable database management system.

Functional Requirements:

1. Real-time photo updates: RSS feeds, API integration, or custom development.
2. Categorized photo sections: categorization feature.
3. Searchable archives: Database indexing, search algorithms.
4. Multimedia content support: Media library integration.
5. User registration/login: Authentication and authorization mechanisms.
6. Social media integration: API integration.

Non-Functional Requirements:

1. Security: SSL encryption, secure authentication.
2. Scalability: load balancing.
3. Usability: User-friendly interface, accessibility.
4. Performance: Optimization techniques, caching.

Potential Challenges:

1. Content management and updates.
2. Ensuring real-time updates.
3. Integrating social media platforms.

Next Steps:

1. Finalize project scope and timeline.
2. Assemble development team.
3. Begin detailed design and development.

Feasibility Studies:

1. Technical Feasibility Study

A study of resource availability that may affect the ability to achieve an acceptable system. This evaluation determines whether the technology needed for the proposed system is available or not. Can the work for the project be done with current equipment existing software technology & available personnel? Can the system be upgraded if developed?

2. Economics Feasibility Study

Economic analysis is the most frequently used method for evaluating the effectiveness of a proposed system. In this feasibility we decide the proposed system as on the basis of cost, benefit analysis. Whether the proposed system is feasible according to the economic factors.

The benefit that this system has are many including the working speed of the system queries are stored in a faster manner, the data are stored in the database that can be used whenever required.

3. Operational Feasibility Study

The assessment made if the system will be used or not once it is developed. According to the project the material sharing application will use. The operational feasibility if the system is developed and implemented to measure. How well our project solution is will work in the organization.

SYSTEM ANALYSIS AND DESIGNING

Requirement Analysis

○ **Function Requirement:**

The software must allow input of product data from administrator at secured access, and from the data streaming real-time monitoring equipment.

○ **Non-function Requirement:**

The software interface must follow design conventions which allow for familiar location of menus etc.

➤ **MINIMUM HARDWARE REQUIREMENT**

COMPONENT	MINIMUM REQUIREMENT
PROCESSOR	Intel(R) Core(TM) i3
SUPPORTED ARCHITECTURE	32 BIT
	64 BIT
HARD DISK	INSTALLING 250 GB OR HIGHER
RAM	4.00 GB OR HIGHER

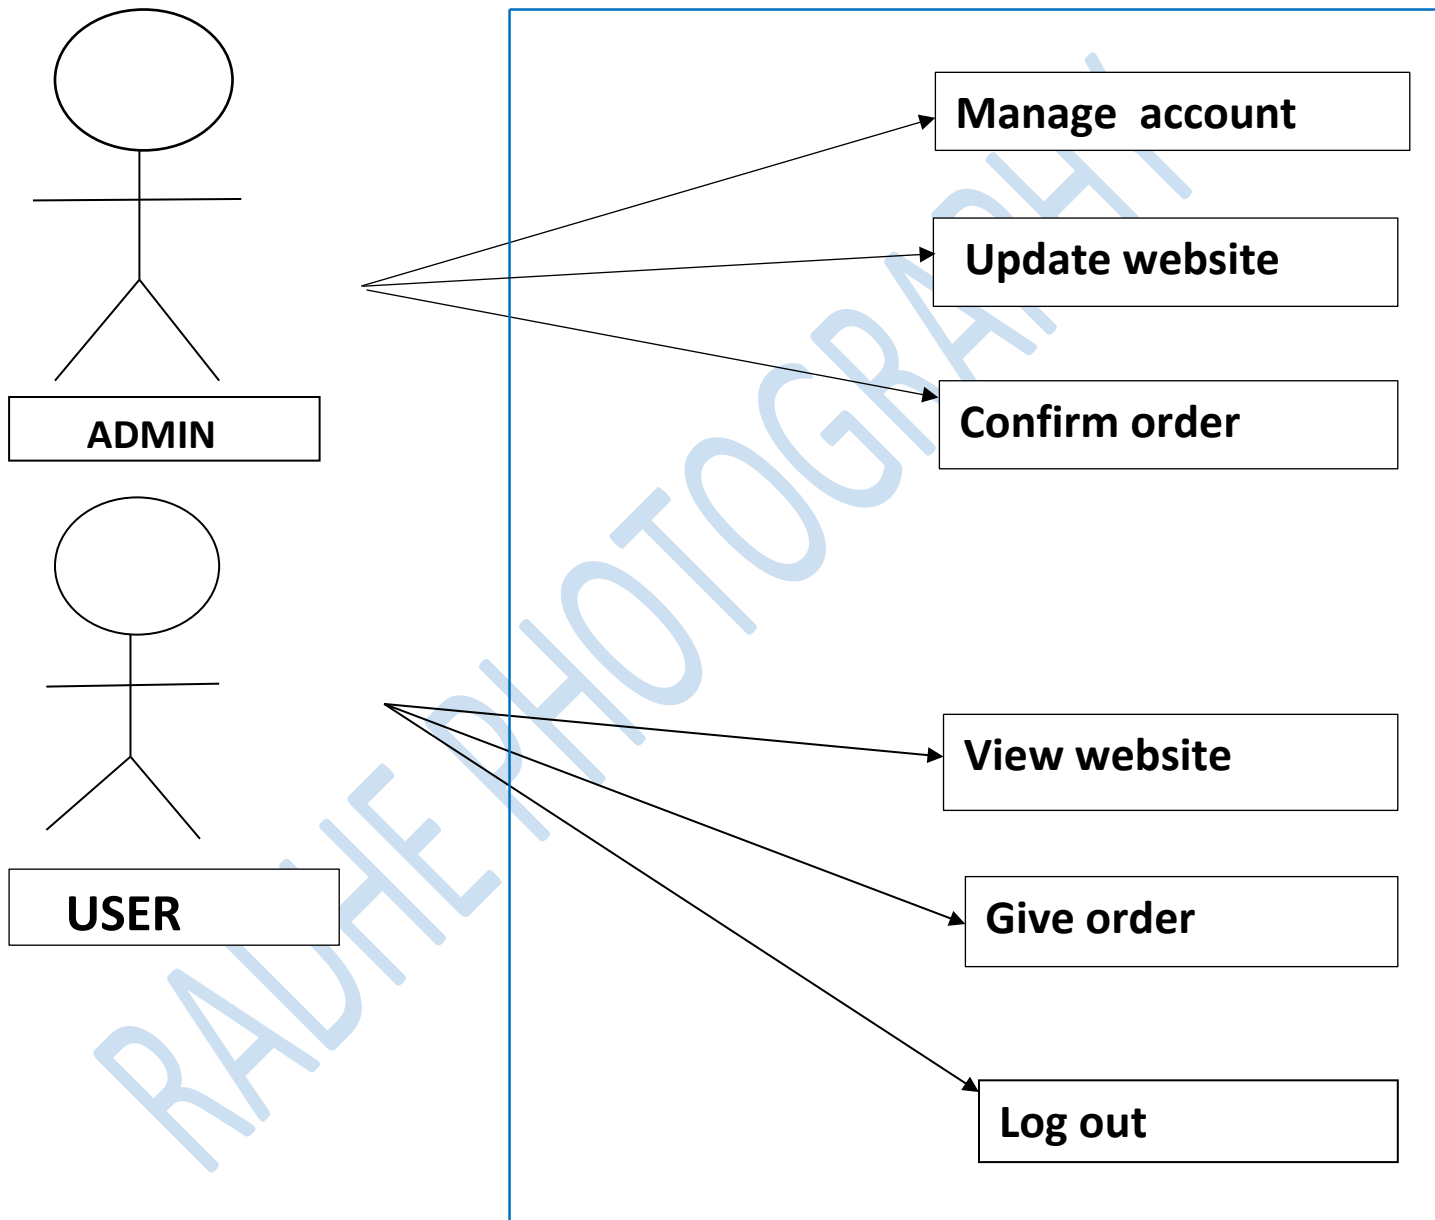

➤ **MINIMUM SOFTWARE REQUIREMENT**

COMPONENT	MINIMUM REQUIREMENT
<i>OPERATING SYSTEM</i>	<i>WINDOW 10</i>
<i>PROJECT DEVELOP SOFTWARE</i>	<i>MICROSOFT VISUAL CODE 2012</i>
<i>WEB BROWSERS</i>	<i>OPERA INTERNET BROWSER, GOOGLE CHROME, INTERNET EXPLORER, FIREFOX</i>

SOFTWARE TESTING

Before actual implementation the new system into operations, a test run of the system is done for removing all the bugs. After codifying the whole program of the system, a test plan should be developed and run on a given set of test data. The output of the test run should be match with the expected results. Sometimes, system testing is considered as a part of implementation process.

Using the test data following test run are carried out:

- ✓ **Program test**
- ✓ **System test**

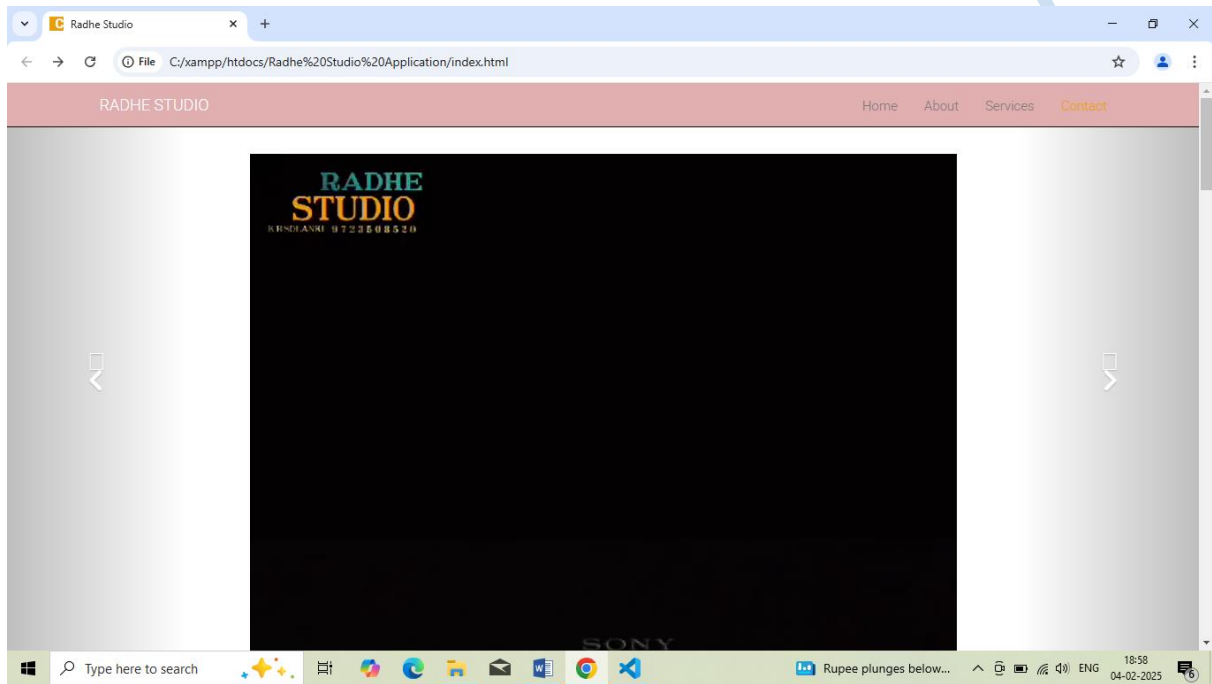

Program test: When the programs have been coded and compiled and brought to working conditions, they must be individually tested with prepared test data.

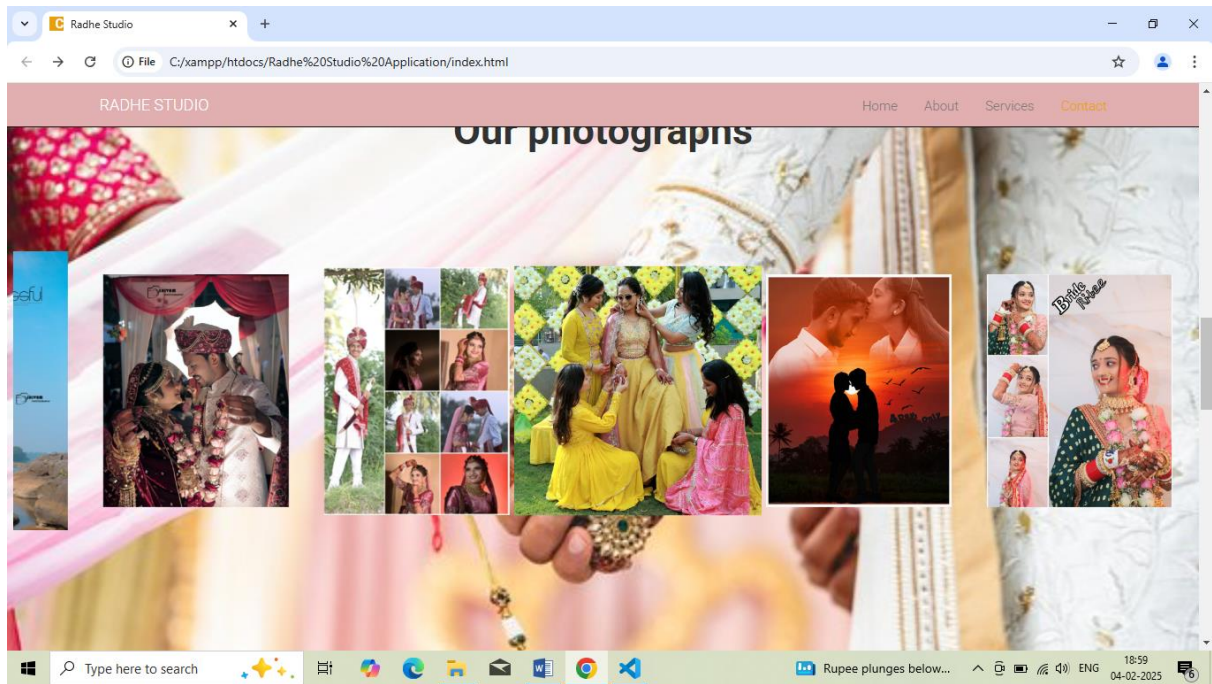

All verification and validation be checked and if any undesirable things happening it must be noted and debugged (error corrected).

System test: After carrying out the program test and removing errors, system test is done. At this stage the test is done on actual data. The complete system is executed on actual data.

USER INTERFACE DESIGNS (SNAPSHOTS)

HOME SCREEN

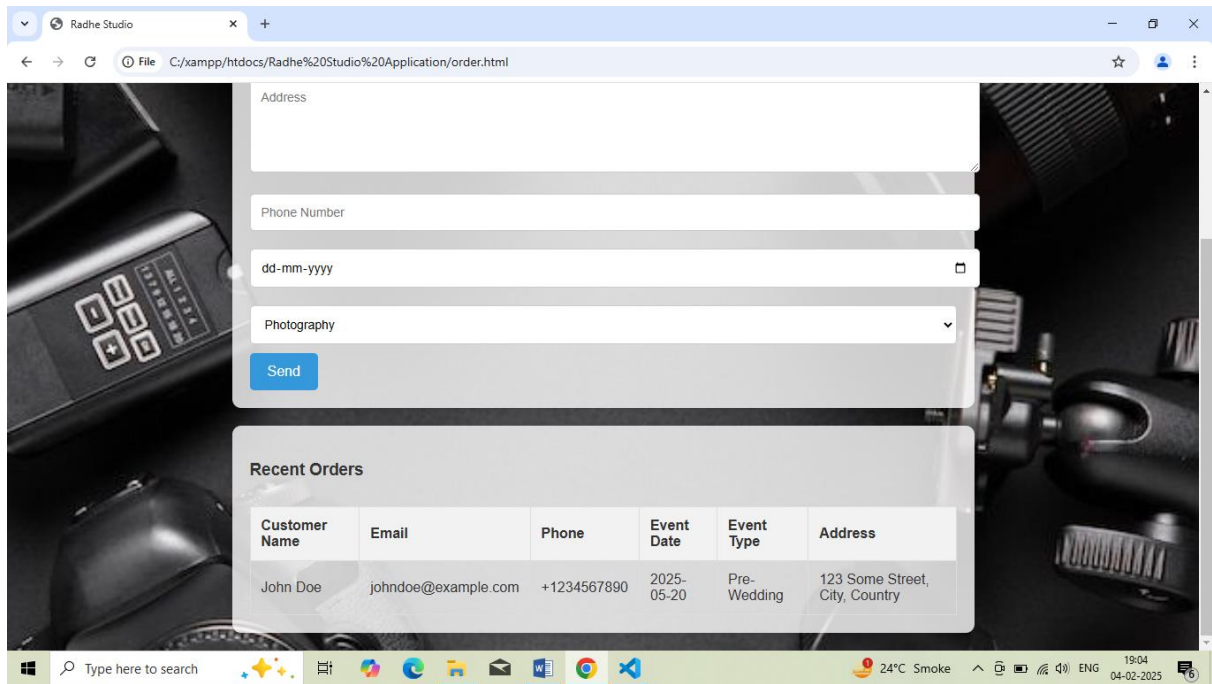

BOOK YOUR ORDER(ORDER DETAILS)

The screenshot shows the 'Order Details' form on the Radhe Studio website. The form is set against a background image of a camera. The form fields are as follows:

- Customer Name
- Customer Email Id
- Address
- Phone Number
- dd-mm-yyyy
- Photography

There is a blue 'Send' button at the bottom of the form. Below the form, there is a section for 'Recent Orders'.

```

```
<p><b>Hi, I'm Kuashik, a
passionate photographer and videographer with a
love for capturing life's most
authentic
and beautiful moments. Whether
it's a stunning landscape, a vibrant event, or a
personal portrait, I
thrive on
telling stories through the
lens.
```

```
With 7 years of experience, I
bring a blend of creativity, technical expertise,
and a keen eye for detail
to
every project. No matter the
assignment, I approach each with the same
dedication to quality and
excellence.
```

```
I believe that photography and
videography are more than just taking pictures or
recording videos-they are
about crafting a visual
narrative that resonates with people. My goal is
always to not only meet your
expectations but to exceed
them, delivering timeless visuals that you can
cherish forever..</b></p>
